

Agenda

45th Annual Pediatric Primary Care Conference: Pediatrics at the Beach

July 19, 2024 – July 21, 2024

Join us in Virginia Beach for three half-days of innovative content on urgent care, primary care and developmental pediatrics with small group sessions that provide opportunities for interactive learning through case analysis and in-depth discussion. Network with your peers and catch up with old friends at the reception hosted by the Children's Hospital Foundation on Saturday evening.

Target Audience

This activity is designed for physicians, nurse practitioners, physician assistants, nurses, and other health care professionals who deliver primary, urgent, emergency, and developmental care to children and adolescents.

Course Objectives

At the conclusion of this activity, learners will be able to:

1. Develop confidence in counseling families around suicide assessments and treatment options
2. Describe the assessment and treatment for the unique features of pediatric urologic conditions, hemoglobinopathies, and dyslexia
3. Describe the recent progress that has occurred in pediatric palliative care
4. Review and apply age related vaccination revisions
5. Identify differential diagnosis and comorbidities for autism
6. Discuss the use of shared reading as a tool to promote social and pre-reading skills in young children.
