

10 points for making an Operator License Exam “game plan”

1. Will I use timing milestones?
2. Will I review all the questions or just start answering?
3. What question # will I start, or will I start with first question and work from there?
4. Will I answer easy questions first?
5. Will I do math problems at end, at beginning, or in order as they come?
6. Will I skip questions I don't know?
7. “Forecast” an answer after going through all questions or at each question/in order?
8. “Forecast” an answer after eliminating 1 or 2 possible answers?
9. How will I avoid “2nd guessing” myself?
10. My motto for this test is “?”
